

## PLAY ZONE 1: CENTRAL PLAY HUB

Potential age group: 0 to 12

### Potential features:

- Multi-skill play equipment that is purchased “off the shelf” (supplied by a manufacturer) or a bespoke item (designed and constructed as a one off item). This piece should allow for a variety of play experiences and ages.
- Dry creek bed with pump/tap at one end to create water play. Bottom of creek bed could be lined with community art projects such as mosaics, crystals, fish tiles etc. The lower wall could act as a retaining wall or seating wall to protect other equipment on the upper level from flooding.
- Birds nest swing that allows for more than one child on the swing.
- Multi-use equipment that can be used in a variety of ways by the community such as low decks, stepping stones, climbing poles.
- Shade trees (could include more than 1)
- Seating nearby (set within concrete path)
- Near new public toilets
